## OUR HIGH FIVE GUIDING PRINCIPLES

- Delivering high-quality patient care

- Creating excellent workplaces for our employees
- Taking a leadership role in our communities
- Ensuring fiscal responsibility

Duke LifePoint Healthcare is a joint venture of Duke University Health System and LifePoint Health that was established in 2011 to bring high-quality health care services to community hospitals in North Carolina and the surrounding region, as well as regional referral centers across the nation.

Duke LifePoint hospitals uniquely benefit from Duke's patient safety and clinical quality expertise and LifePoint's operational and financial resources and expertise. Innovation is at the core of our joint venture, as Duke LifePoint was among the first successful collaborations between academic medical centers and investor-owned health care systems.

Today, Duke LifePoint is nationally recognized and continues to develop leading-edge models for the delivery of quality care.

We recognize the crucial role a thriving health care system plays in supporting the economic health and development of a community, and we are proud to share our contributions through this report.
